Photographs of the Moon
Lab #

Objective: In this lab, you will develop your pictures of the Moon. Try to make the best picture you can.

Instructions for developing pictures

NEVER OPEN THE DOOR OR TURN ON THE LIGHTS WHILE YOU HAVE UNPROCESSED PHOTOGRAPHIC PAPER OUT!!!!!!!!!!!!!!!

- Place negative in metal holder.
- If desired, place filter in filter holder.
- Adjust the height of paper-frame, if needed.
- Focus the image.
- Turn-off white lights and timer switch.
- Remove one piece of photographic paper from envelope and place in frame.
  - MAKE SURE TO CLOSE BACK PROPERLY ENVELOPE, BOX AND DRAWER!!!!!
- Set time
- Turn-on timer switch and allow paper to expose.
- Develop:
  - 1-2 min in developper
  - 1 min in stop
  - 2 min in fixer
  - rinse thoroughly
- Agitate gently with tongues in each bath.
- Allow solution to fully drain from prints before placing in next bath.
- DO NOT SHARE TONGS BETWEEN BATHS.
- Hang up photo to dry once rinsed.
